Corburn, J. (2013). Healthy City Planning: From Neighborhood to National Health Equity. Routledge. <http://www.routledge.com/books/details/9780415613026/>

The City of Richmond policies and practices are explored in constituting healthy city planning concepts. The Richmond case study is used to personify some of the characteristics of his ideal of adaptive urban health justice. There is historical review of Richmond as a place, its policies and social movements around urban development and public health, and is an example of the urban poor participating in, shaping, and being impacted by healthy city planning.

Robert Wood Johnson Roadmaps to Health Prize, Finalist out of 250 applications
